Danish is twelve years old and studying in 3rd class. His father is working as a laborer for daily wages. His mother's name is Shubnam and she is domestic worker. There are three brothers and two sisters. They live in their parents' home and the house is very small with four families are living there. They do not earn enough to afford their children's education.

The Agape Pakistan Charitable Foundation we partner with is helping this boy for his education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for him education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
