Anmol Salmat is seven years old and studying in Prep class. She has four sisters. Her father's name is Salamat. He is a rickshaw driver. Her mother's name is Rehana Salmat. She is a domestic worker. There are five sisters. They don't have their own house. Her parents' earnings is not enough to fulfill the educational needs of the children, but they have a strong wish to educate their children.

The Agape Pakistan Charitable Foundation we partner with is helping this girl for her education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for her education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
