Rose Merry is eleven years old and studying in 4th class. Her father's name is Salamat. He is a rickshaw driver. Her mother's name is Rehana. She is a domestic worker. They don't have their own house. There are five sisters. Their parents do not earn enough to fulfill the educational needs of their children, but they have a strong wish to educate their children.

The Agape Pakistan Charitable Foundation we partner with is helping this girl for her education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for her education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
