Rubia is eight years old. She is studying in Prep class. She has one sister and one brother. Her father name is Dilshad who is a heart patient but works on daily wages. His mother name is Fouzia Begum who is working as a cleaner in different houses to earn money for their food. They are living in very small home. His parents' earning is not enough to fulfill the educational needs of their children. Rubia is very good in her study, therefore they have a strong wish to educate their daughter.

The Agape Pakistan Charitable Foundation we partner with is helping this girl for her education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for her education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
