Misbah is four years and studying in Nursery class. She has two sisters and one brother. Her father's name is Ramzan who is works on daily wages. Her mother's name is Rubina who is working in house (Stitching of bed sheets) to earn money for their food. They are living in very small home. Parents' earning is not enough to fulfill the educational needs of their children. They have a strong wish to educate their daughter.

The Agape Pakistan Charitable Foundation we partner with is helping this girl for her education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for her education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
