Azan is five years old and studying in prep class. His father is working as a laborer on daily wages. His mother's name is Farah who is a housewife. There are only two brothers. They do not have their own house but they live in a small rental home where three families already lived. Their parents do not earn enough to afford their children's education.

The Agape Pakistan Charitable Foundation we partner with is helping this boy for his education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for his education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
