Nida is seven years old and studying in Nursery class. She has only one sister. Her father's name is Raza and he works in a factory. Her mother's name is Rukhsar and she died last year. They live in a rental home with her grandmother. Nida's father had no source of money for his daughter's education. But Agape Pakistan teachers talked with her grandmother for the studies. She agreed and Nida is very good in her study, therefore, they have a strong wish to educate their daughter.

The Agape Pakistan Charitable Foundation we partner with is helping this girl for her education using the foundation's limited resources. We need sponsors for this child to help provide the \$360 needed for annual support for her education, basic health care, and Sunday school. We ask you to prayerfully consider helping this child to be a good Christian citizen of Pakistan.
